**Managed Strategies** are designed by Merrill or by carefully selected, institutional-quality third-party investment managers.

They are vetted by a rigorous due diligence process, or informed by insights from BofA Merrill Lynch Global Research. Your advisor can select from Separately Managed Accounts (SMAs) and/or portfolios composed of SMAs, mutual funds and Exchange Traded Funds (ETFs).

Investment minimum: $5,000 (Minimum may be higher depending on selected investments)

**Custom Managed Strategies** are used when you need a more customized approach to portfolio construction.

They allow you or your advisor to customize your asset allocation using SMAs, mutual funds and ETFs to suit your unique situation in a single account.

Investment minimum: $20,000 (Minimum may be higher depending on selected investments)

**Defined Strategies** allow your advisor to create and manage distinct portfolios on a fully discretionary basis.

Your advisor has the ability to select from a range of investment solutions, including equity and fixed income securities, mutual funds and ETFs.

No investment minimum.

**Personalized Strategies** are also used when you need a more customized approach to portfolio construction.

They give you and your advisor the ability to select from a range of investment solutions, including individual equity and fixed income securities, mutual funds, annuities, alternative investments and ETFs.

No investment minimum.

**Working closely with your advisor, you’ll decide which investment strategy is right for you and determine who has authority, or discretion, over certain day-to-day investment decisions.**

Depending on the overall strategy type you select together, you can maintain discretion or give it to your advisor.

**Client discretion**

When you maintain discretion, your advisor will provide advice and guidance based on the overall strategy you outlined together. Your advisor will not make any adjustments or changes unless you agree to them first.

**Advisor discretion**

By giving your advisor discretion, you maintain control over the overarching goals and priorities that guide your investments, but allow your advisor to manage the day-to-day investment decisions. This means that as market conditions change, your advisor can react quickly — even if you’re not available.
All annuity contract or rider guarantees, including optional benefits and any fixed subaccount crediting rates or annuity payout rates, are backed by the claims-paying ability of the issuing insurance company. They are not backed by Merrill or its affiliates, nor does Merrill or its affiliates make any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

1 Alternative investments and annuities are available only on a client discretionary basis.

Transparency into our relationship

Program fees: With the Investment Advisory Program, you’ll have confidence and clarity around fees, based on your assets under management. For more information, you can request a breakdown of fees paid to Merrill and, as applicable, fees for style manager strategies, such as SMAs.

Consistency: We offer consistent billing methodology across accounts, applied monthly in advance.

Fees based on your relationship: When setting the fee rate for your account, we may consider your broader relationship, including certain assets and liabilities you or others have with Merrill.

Single agreement: The features and services of IAP are covered in a single agreement. That means, in most cases, you’ll only need to sign on once during enrollment — even if you subsequently add additional accounts.

Regular reporting: From an initial Welcome Kit and Portfolio Summary to monthly statements, quarterly portfolio updates (if warranted) and an annual performance review, our regular reporting makes it easy for you and your advisor to understand how your investments are performing and working together to achieve your goals.

Annual client review: Once a year, you’ll sit down with your advisor for an Annual Client Review. This is an opportunity to take a bigger-picture look at your goals and life priorities, and to modify your portfolios as needed to help ensure you’re staying on track.

Talk to your advisor to discuss your goals and determine whether the Merrill Lynch Investment Advisory Program is right for you.
